NATURE OF RELEASE

Type of Release Produced Water	Volume of Release 878.4 BBLS	Volume Recovered 845 BBLS
Source of Release 2 inch Fiberglass Trunkline	Date and Hour of Occurrence 9/19/09 unknown	Date and Hour of Discovery SAME 9/19/09 0717
Was Immediate Notice Given? <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No <input type="checkbox"/> Not Required	If YES, To Whom? Pat Hutchins	
By Whom? Tommy Brooks	Date and Hour 09/19/09 1615	
Was a Watercourse Reached? <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No	If YES, Volume Impacting the Watercourse.	

If a Watercourse was Impacted, Describe Fully.*

Describe Cause of Problem and Remedial Action Taken.* Leak originated from a hole in a 2" fiberglass trunkline due to fatigue. Trunkline was isolated on the 2 A Header.

Describe Area Affected and Cleanup Action Taken.* The release affected 300' x 60' of pasture land. The affected area was delineated laterally and vertically and a "Findings Report" was written and submitted by Tetra Tech on August 18th, 2010 to NMOCD & BLM. Approximately 2,500 yards of contaminated soil was taken to a NMOCD approved facility for disposal. The release was excavated to 4' and a 1.5' thick clay layer barrier was installed at the base of the excavation. Top soil was imported to the site to serve as the remaining backfill for the excavation. The Disturbed area was seeded with an approved BLM seed mix.

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
