Describe Cause of Problem and Remedial Action Taken.\*

Vandals opened the load line valves on the oil and water tanks. Allowed the entire contents to be drained on location. Not sure on the exact time of release occurred. Fluids had soaked into the ground. Contacted sheriff first to establish a case for the criminal activity.

Describe Area Affected and Cleanup Action Taken.\*

Approximately 35 bbls of oil was released from the oil load lines. The spill area was 20' by 180' north of the tank battery. The majority of the spill is still on the location pad. Plans are to take samples of the spill area.

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
