---

Good Morning,

NMSLO will agree with NMOCD that remediation efforts have been achieved. This location will not be fully released from NMSLO until desired vegetation is achieved. If you would like complete release, please send photos of the location for determination.

Thank you,

**Amber Groves**

**Subject:** RE: Nowata AGR State #1 1RP 3901

Dear Mr. Dominguez:

Please see the attachment for your records.

The available information indicates **OPERATOR** has met the requirements of 19.15.29 NMAC and no further corrective action is required. NMOCD considers **1RP-3901** closed. This

determination by the Oil Conservation Division does not relieve Operator of responsibility should future information indicate a threat to ground water, surface water, human health, or the environment. Furthermore, it does not relieve Operator of responsibility for compliance with any federal, state, or local laws and/or regulations.

Like approval from NMSLO is required.

Thanks,

Olivia Yu  
Environmental Specialist  
NMOCD, District I  
[Olivia.yu@state.nm.us](mailto:Olivia.yu@state.nm.us)  
575-393-6161 x113

OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to ground water, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, local laws and/or regulations.
