Subject: RE: ConocoPhillips - Philimex #6 Work Plan - 1 RP 1681

Good morning Mr. Tavarez:

NMOCD approves of the completed delineation and proposed remedial activities for 1RP-1681 with one condition: Sidewall confirmation samples are required. Please confirm.

Please see the attachment for your records. Like approval from SLO is required.

Thanks,

Olivia Yu
Environmental Specialist
NMOCD, District I
Olivia.yu@state.nm.us

OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to ground water, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, local laws and/or regulations.

Subject: ConocoPhillips - Philimex #6 Work Plan - 1 RP 1681

Olivia,

Here is a ConocoPhillips Work Plan for the above referenced site. The release occurred in 2007 and the open C-141 for the site has not been addressed. The site location has been recently sold to another operator and ConocoPhillips would like to move forward to perform the proposed remediation. ConocoPhillips is scheduling the proposed remediation next week. Please review and call me if you have any questions or let me know if we need to meet tomorrow (Friday 7-7-17) in your office to discuss and review the proposed work plan for the site. Thanks
