**If a Watercourse was Impacted, Describe Fully.\***  
N/A

**Describe Cause of Problem and Remedial Action Taken.\***

Flare scrubber swamped out sending oil to the flare causing a fire and release. The gas was shut off to the flare and when it was safe the fire was extinguished.

**RECEIVED**  
**By Olivia Yu at 7:24 am, Jul 27, 2017**

**Describe Area Affected and Cleanup Action Taken.\***

Approximately 1/4bbl oil was released in a Northeastern mist onto the location and into the adjacent pasture an area approximately 20' x 20' was affected. 0bbls oil were recovered. An environmental contractor will be contacted to assist with delineation and remediation.

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
