OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to ground water, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, local laws and/or regulations.

Mr. Allen:

Thank you for your patience. NMOCD decided that separate identifiers will be issued for each Recycling Facility and Recycling Containment. Therefore, NMOCD will issue unique identifiers for your documentation for the Recycling Containments.

To confirm, only the Sand Dunes Recycling Facility and Mesa Verde- East Recycling Containment #2 are located in District I, correct? I am double-checking because the title page for Appendix 2 states Sand Dunes- Recycling Containment #1 and title page for Appendix 3 states Mesa Verde- Recycling Containment #2. However, page 1 of the C147 application states that the package contains the registration for Sand Dunes Recycling Facility and Mesa Verde- East Recycling Containment #2.

Thanks,  
Olivia
