Dear Mr. Merchant:

A Conoco Phillips representative informed me that the State E battery location transferred ownership to Penroc on July 1, 2017. The below photos indicate that the release is of a reportable volume. Please verify and submit an initial C-141 to both NMOCD and NMSLO within 15 days.

Thanks,

Olivia Yu

OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to ground water, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, local laws and/or regulations.

Good morning Olivia,

Not sure if you're tracking the above location. Got a few pictures the other day in case you haven't seen it or it's been a while since the release.
