Revegetation and Noxious Weed Management Plan.pdf

Jim,

Your proposal of additional delineation is approved. Please be advised that there will be a revegetation plan required by NMSLO to be submitted with the work plan to NMOCD once delineation is complete. I have attached our revegetation requirements to this e-mail for your convenience.

Thank you,

Amber Groves

Amber,

Attached is the work plan for delineating the State OG SWD No. 2. Please let me know if you have any questions or need anything further.

Thank you,
Jim

Mr. Foster,

I am in need of the delineation plan for review.

Thank you,

Amber Groves

Subject: RE: Jay Management - State OG SWD No. 2 Work Plan

Mr. Foster:

NMOCD approves of the proposed additional delineation for 1RP-4703 with one condition. One

sample location must be established in the impacted area south of the lease road. Permissible chloride levels of 250 mg/kg must be obtained and maintained for 10 ft. further in depth. Permissible TPH levels must be obtained and maintained for minimum 2 ft. further in depth. All laboratory analyses must have accompanying field data. Please confirm.

Like approval from SLO is required.

Thanks,

Olivia Yu
Environmental Specialist
NMOCD, District I

OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to ground water, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, local laws and/or regulations.

Olivia,

Attached is a work plan to address soil impacts from the recent release at the State OG SWD No. 2. The work plan also contains laboratory analysis of samples collected during the initial site assessment.

Please let me know if you have any questions.

Thank you,

Jim Foster
