**Subject:** RE: Linn - CMU B #035 (1R-3932) Closure Request  
**Date:** Wednesday, July 5, 2017 3:15:00 PM

---

Dear Ms. Flores:

Please address these concerns regarding the closure report for 1RP-3932:

1. On a scaled map, demarcate sample locations and dimensions of release area.
2. SP 2 and 4 do not appear to be completely vertically delineated. Obtain and maintained permissible chloride levels of 600 mg/kg for 2 ft. further in depth.
3. Confirmation sidewall samples are required at edges of impacted area.

Please confirm.

Thanks,

Olivia Yu  
Environmental Specialist  
NMOCD, District I  
[Olivia.yu@state.nm.us](mailto:Olivia.yu@state.nm.us)

OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to ground water, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, local laws and/or regulations.
