Thank you for the modified figure. Please include this and any other figures that would facilitate review of the delineation/remediation report for 1RP-4583. To clarify the comment about the 2 depths, the reference is for vertical delineation.

Thanks,
Olivia

Brad,

We can do that, or provide a figure that zooms in on that area to just show that data. I'm with you on the old eyes ;)

Thanks Bernie,

Assume this is for clarity on submittal already in? New test spots over on west side will be under separate figure/report? Thanks. It helps my old eyes.

Brad

Subject: Revised 2C-14-3 Figure

Olivia,

As discussed, I have attached the revised figure for the 2C-14-3 assessment. I removed the surface samples and field screening locations which made the original figure cluttered and difficult to review. Please let me know if you have any questions.

Bernie
