Attachments: approved_(Work Plan) BC Federal #032 (30-025-38829) 9-10-2017 (1RP-4811)_final.pdf

Mr. Hitchcock:

NMOCD approves of the delineation completed for 1RP-4811 and proposed remediation with these conditions:

1. For the area represented by T-2 with a 1 ft. proposed excavation, laboratory analyses (TPH extended and chlorides) of confirmation bottom and edge samples required.
2. On an appropriately scaled map 1) outline and annotate the areas with 6-inches and 1 ft. excavations, and 2) mark confirmation sample locations with GPS coordinates.
3. Photo documentation of delineation and remediation activities.

Please confirm or inform for clarification.

Like approval from BLM required.

Thanks,

Olivia Yu
Environmental Specialist
NMOCD, District I
Olivia.yu@state.nm.us
575-393-6161 x113

OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to ground water, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, local laws and/or regulations.
