Good afternoon,

Permission to backfill is granted. Once the final report is submitted the RP will be closed out.

Thank you,

Jamie

Subject: 4 inch Lateral RP# 2904

Good day Jamie,

Hope you are doing well this Monday afternoon,

I was talking with Curt Stanley with (TRC) this morning, and he had mentioned to me that you and he had a conversation last week about the ETC 4 inch Lateral (2/18/13) remediation project.

He also mentioned to me that you had given him the verbal approval to backfill the excavation site with no further delineation or remediation requirements. That is wonderful news to hear!

At your earliest convenience sir, could you please send me an email or reply to this email stating that we may backfill the ETC 4 inch lateral with no further delineation or remediation efforts for our environmental records?

I really appreciate yours and Kellie's assistance with this project.

I hope you have a great rest of the day & again thank you.

Respectfully,

Rose L. Slade
