Thank you for the updated information. BLM concurs with NMOCD approval to backfill.

If you have any questions or concerns, please do not hesitate to contact me.

Sincerely,

Shelly J Tucker

The **BLM acceptance/approval does not** relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that may pose a threat to groundwater, surface water, human health or the environment or if the location fails to reclaim properly. In such an event that the location does not revegetate, or future issues with contaminants are encountered, the operator will be asked to address the issues until the contaminant issues are fully mitigated and the location is successfully reclaimed. In addition, BLM approval does not relieve the operator of responsibility for compliance with any other federal, state or local laws/regulations.

Olivia/Shelly,

It was brought to my attention a little while ago that the "Sample Location Map" included with the Backfill Request lists the wrong site, RP #, and county in the title block (although the correct site *is* depicted). I evidently forgot to update that portion of the layout template, and nobody caught it before I sent it out.

An updated map with the correct site name, RP, and county is attached. I apologize for any

confusion.

Thanks.

Ben

Good morning Mr. Arguijo:

NMOCD grants backfill approval for 1RP-4816. Please provide photo documentation of the remedial activities, including photos of a properly keyed and situated, minimal 20 mil liner for the area represented by SP-4 and SP-5.

Like approval from BLM required.

Thanks,

Olivia
