Latitude 33.048177 Longitude 103.573587

NATURE OF RELEASE

Type of Release: Gas Release	Volume of Release: 266 MCF	Volume Recovered: n/a
Source of Release: Inlet scrubber from Vada Compressor Station	Date and Hour of Occurrence: 3/12/2018, Approximately: 12:28	Date and Hour of Discovery: 3/12/2018, Approximately: 12:28
Was Immediate Notice Given? <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No <input type="checkbox"/> Not Required	If YES, To Whom? Hobbs, OCD Office: Ms. Olivia Yu	
By Whom? Cindy Klein	Date and Hour: 3/12/2018 Approximately 13:20	
Was a Watercourse Reached? <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No	If YES, Volume Impacting the Watercourse.	

If a Watercourse was Impacted, Describe Fully.*

RECEIVED

By Olivia Yu at 8:14 am, Mar 28, 2018

Describe Cause of Problem and Remedial Action Taken.*

A weld on a bridle failed on an inlet scrubber to the Saunders Plant. The weld on the bridle failed causing inlet gas to be released to atmosphere. Upon discovery of the failure, operations immediately shut the plant down. The inlet line was blocked in at the nearest block valve. To reduce pressure quickly, the flare pressure on the inlet line was reduced by opening the valve to flare. When the line was de-pressured, the inlet scrubber was isolated and taken out of service. Plant was restarted and normal operations resumed.

Describe Area Affected and Cleanup Action Taken.*

No clean up required.

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
