Ms. Johnson:

NMOCD approves of the proposed delineation plan for 1RP-4269 with one clarification:

- The report mentioned a sampling event that occurred on December 20, 2016 with data provided in Appendix B. The aforementioned data were not appended. Please include in the subsequent delineation report.

Thanks,

OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to ground water, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, local laws and/or regulations.
