Mr. Mann,

Attached is the Revised Work Plan for the above referenced site, which includes the revegetation and noxious weed management plan. Let me know if you have any other questions or concerns.

Thank you,

Clair Gonzales

Subject: RE: COG Gunner 16 State SWD #1 Work Plan Approval Request (1RP-4812)

Ms. Gonzales:

NMOCD approves of the delineation completed for 1RP-4812 and proposed remediation with the following conditions:

- 1) Chloride analyses of confirmation bottom and sidewall samples at no greater than 75 ft. apart. At least one sample location must be at the border between the area represented by BH1 & BH2/3 and 1 between BH2/3 & BH 5/6.
- 2) Demarcate confirmation sample locations on an appropriately scaled map (or tabulate) with GPS coordinates.
- 3) Follow-up and inform NMOCD and NMSLO on the impacted area in the vicinity of the EOG right-of-way. Closure/deferral will not be granted until this part of the release is addressed.
- 4) Photo documentation of remedial activities/area to be deferred within the right-of-way.

Like approval from NMSLO required. NMSLO may have additional stipulations.

Please confirm or inform for clarification.

Thanks,

Olivia Yu

Environmental Specialist
NMOCD, District I
Olivia.yu@state.nm.us
575-393-6161 x113

OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to ground water, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, local laws and/or regulations.
