---

Mr. Hitchcock:

NMOCD approves of the delineation completed for 1RP-4917 and the proposed remediation with the below stipulations:

- Confirmation sidewalls and bottoms are required for the proposed depths of excavation at the areas represented by T-3 and T-4.
- Please provide an appropriately scaled map with the excavated areas represented by T-3 and T-4 outlined and confirmation sample locations demarcated, relative to the delineation sample locations. Tabulate GPS coordinates.
- Photo documentation of remedial activities.

Thanks,  
Olivia

Sheldon,

BLM accepts and approves the proposed work plan. Please let me know when excavation activities will begin so that I may schedule a time to inspect the location prior to backfill.

Thank you.

\*\*\* Lesser Prairie Chicken (LPC) timing stipulations are in effect 1 Mar- 15 June annually.

\*\*\* Tis the season for African Rue. Please do a 360 scan around your well locations and lease roads.

The **BLM acceptance/approval does not** relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that may pose a threat to groundwater, surface water, human health or the environment or if the location fails to reclaim properly. In such an event that the location does not revegetate, or future issues with contaminants are encountered, the operator will be asked to address the issues until the contaminant issues are fully mitigated and the location is successfully reclaimed. In addition, BLM approval does not relieve the operator of responsibility for compliance with any other federal, state or local laws/regulations.

Ms. Yu/Ms. Price,

Please find the attached work plan for the release that occurred at the MC Southeast Tank Battery on 1/4/2018. If you have any questions or concerns please let me know.

Thank you,
