Based on infromation presented, this plan was verbally approved as stated/LWJ	<u></u>
From: Jerri Lee [mailto:office@sesi-nm.com] Sent: Fri 7/14/2006 8:37 AM To: Johnson, Larry, EMNRD Cc: 'Jimmy Carlile' Subject: Fasken Oil Junction N of 82	
Larry,	
This is to confirm your conversation with Bob on July 12, 206 concerning the Fasken Oil Junction N of 82 Site. It is our intentions to excavate horizontally to the north, east, and west of the existing excavation until the chloride concentrations are <250 ppm. Upon completion the excavation will be backfilled to a depth of 6 feet and a liner will be installed. After installation the excavation will be backfilled and contoured back to grade. Please forward your approval of this plan.
