Hello, Mr. Geoff. I understand now. This is an actual well pad and not a Salt Water Disposal. I see that Mr. Randy was reviewing this one for Ms. Shelly; however, Ms. Shelly is not in today. I did review the documents. It looks fine. You all can continue with your remediation plan. Thank - you.

Regards,

Yolanda

Randy always stated that this site was not really a right of way site. It was a surface pipeline approved in a Sundry Notice by Jesse Bassett. Below is an excerpt from Randy's approval of the delineation plan sent on Wed 9/6/2017 4:33 PM just before he left the BLM:

“Note to Yolanda - Shelley Tucker passed this to me because there is a R/W pipeline in this vicinity. However, it was not that pipeline that leaked. **This surface pipeline was approved by a Sundry Notice by Jesse Bassett;** I could have given it back to Shelley, but since she was buried in work, I decided to follow through.”

I know that Shelley forwarded you an email where Randy said it was a right of way site, but I think that email was sent to Shelley before Randy found the approval in the Sundry Notice by Jesse Bassett. So, as far as I know there never was a right of way number assigned. I can forward you Randy's entire email of Wed 9/6/2017 if you would like. I hope this helps. Thanks, Yolanda!

I am not able to find the right of way number for this one Mr. Geoff. What is the right of way number, please?

Regards,

Yolanda

Mr. Leking:

NMOCD approves of the delineation completed and proposed remediation for 1RP-4687. Please remember to include soil bore logs in the subsequent report.

Like approval from BLM required.

Thanks,

Olivia
