NATURE OF RELEASE

Type of Release: Oil & Produced Water	Volume of Release: 4 bbls PW; 1 bbls Oil	Volume Recovered: 3.5 bbls PW; 0.5 bbls Oil
Source of Release: Poly Flowline	Date and Hour of Occurrence: 1/28/2018	Date and Hour of Discovery: 1/28/2018 10:30 AM
Was Immediate Notice Given? <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No <input checked="" type="checkbox"/> Not Required	If YES, To Whom?	
By Whom?	Date and Hour:	
Was a Watercourse Reached? <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No	If YES, Volume Impacting the Watercourse.	

If a Watercourse was Impacted, Describe Fully.*

APPROVED

By Olivia Yu at 10:49 am, Aug 29, 2018

Describe Cause of Problem and Remedial Action Taken.*

This release was caused by a ruptured flowline. The damaged portion of the flowline will be replaced.

Describe Area Affected and Cleanup Action Taken.*

This release occurred along the lease road and on the well pad location. A vacuum truck was dispatched to recover all freestanding fluids. Concho will have the spill area evaluated for any possible impact from the release and we will present a remediation work plan to the NMOCD for approval prior to any significant remediation activities.

Remediation activities were conducted in accordance with applicable NMOCD Guidelines. Impacted soil affected above the NMOCD Recommended Remediation Action Levels was excavated and transported to and NMOCD-approved disposal facility. Laboratory analytical results from excavation confirmation soil samples indicated Benzene, BTEX, TPH and chloride concentrations were below the NMOCD RRAL. Upon collecting the required excavation confirmation soil samples, the excavated area was backfilled with locally sourced, non-impacted material. Please reference the Remediation Summary and Soil Closure Request, dated August 13, 2018, for additional details regarding remediation activities.

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
