Attachments: approved_(Closure Letter) Corvo Federal #002H (30-025-41910) 1-30-2018 (1RP-4956)_final.pdf

Good morning Ms. Haskell:

Thank you for the map. Despite the discrepancy in release location, NMOCD will grant closure to 1RP-4956.

The available information indicates **OPERATOR** has met the requirements of 19.15.29 NMAC and no further corrective action is required. NMOCD considers **1RP-4956** closed. However, this determination by the Oil Conservation Division does not relieve Operator of responsibility should future information indicate a threat to ground water, surface water, human health, or the environment. Furthermore, it does not relieve Operator of responsibility for compliance with any federal, state, or local laws and/or regulations.

Approval from BLM required. BLM may have additional concerns and stipulations.

Thanks,

Olivia Yu
Environmental Specialist
NMOCD, District I
Olivia.yu@state.nm.us
575-393-6161 x113

OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to ground water, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, local laws and/or regulations.

Ms. Yu,

Please review the attached site map which indicates that the Azores Federal #3H and Corvo Federal #2H are adjacent to each other. Please let me know if you have any further questions.

Thank You,

Becky Haskell

**** External email. Use caution. ****

Good morning Mr. Hitchcock:

Please verify the release location for 1RP-4956. The aerial imagery provided in the closure report has the release on the well pad of Azores Federal #3H (30-025-41158), not Corvo Federal #2H.

Thanks,
Olivia

Rebecca:

Thanks for the map with the additional information. Correct. Azores Fed #3H is adjacent to Corvo Fed #3H.

However, it appears that the Corvo 3H and 8H wells labelled on your map is labelled Azores #3H & 8H, respectively on NMOCD's records. See attachment. Perhaps there is an error on the APD to account for NMOCD's records?

You can also check the relative locations of these wells on the public OCD GIS.

Thanks,
Olivia
