NATURE OF RELEASE

Type of Release: Spill	Volume of Release: 12.7 bbls	Volume Recovered: 0 bbls
Source of Release: Fiberglass line	Date and Hour of Occurrence: 08/10/15 2:30PM	Date and Hour of Discovery: 08/10/15 2:30PM
Was Immediate Notice Given? <input type="checkbox"/> Yes <input type="checkbox"/> No <input checked="" type="checkbox"/> Not Required	If YES, To Whom?	
By Whom? Nick Hampton	Date and Hour: 08/10/15 3:44PM	
Was a Watercourse Reached? <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No	If YES, Volume Impacting the Watercourse.	

If a Watercourse was Impacted, Describe Fully.*

N/A

APPROVED

By **OCD District 1** at 10:27 am, Aug 18, 2015

Describe Cause of Problem and Remedial Action Taken.*

Buried fiberglass line failure caused 12.7 bbls of produced water to spill to ground.

Describe Area Affected and Cleanup Action Taken.*

The area affected was the CVU #199. Contaminated soil will be excavated and properly disposed of. Soil samples will be subsequently collected and taken to the laboratory to determine contaminant levels. If contaminant levels are above thresholds, further remediation will be performed.

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
