Ms. Knowlton,

The delineation submitted for **1RP-5090** is incomplete. Per regulation 19.15.29 NMAC, a minimum of two soil samples from each borehole/sample location must be submitted for laboratory analysis. Please note that a complete horizontal and vertical delineation is required for the entire site. The deferral request for **1RP-5090** is denied due to incomplete delineation. Please be advised to request a time extension if necessary. Please inform if you have any questions.
