Subject: RE: Extension Request - XTO- Severus Central Tank Battery (1RP-5552)

Tacoma Morrissey,

The OCD grants 60 days extension of time. The remediation work plan or closure report for the Severus Central Tank Battery (1RP-5552), will now be due on or before Sunday October 13, 2019.

Thanks,

Dylan Rose-Coss

Subject: Extension Request - XTO- Severus Central Tank Battery (1RP-5552)

All,

XTO is requesting an extension of the current 90 day deadline for submitting a remediation work plan or closure report required in 19.15.29.12.B.(1) NMAC at the Severus Central Tank Battery (1RP-5552). The spill occurred May 18, 2019. Initial site assessment began June 6, 2019 and site remediation work began July 16, 2019. Excavation had to be stopped on July 22, 2019 due to pipeline work at the site that blocked both entrances to the pad. The north entrance

opened back up and XTO was able to resume excavation on August 9, 2019. Excavation and delineation of the site is expected to be completed by the end of this week. However, to provide enough time to receive and analyze laboratory results of confirmation samples and complete a closure report or remediation work plan, XTO requests a 30- day extension of the current deadline until September 15, 2019.

Thank you,

Tacoma Morrissey
