☐ Plug Back

☐ Production (Start/Resume)

☐ Reclamation

☐ Recomplete

☒ Temporarily Abandon

☐ Water Disposal

☐ Water Shut-Off

☐ Well Integrity

☐ Other

13. Describe Proposed or Completed Operation (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompleat horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompleat in a new interval, a Form 3160-4 shall be filed once testing has been completed. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the site is ready for final inspection.)

Well: Eaves A 5

Subsequent Report TA

Please accept our request for a TA status extension to evaluate the Upper Yates potential in the Eaves A5. One offset was tested in the Yates and unsuccessful, another tested good.

It appears from our file, that a Notice of Intent was filed w/BLM to TA well on 1/29/01. We are unable to locate any charts or subsequent reports documenting the casing testing. WSI Cased Hole Specialists set a 5-1/2" CIBP @ 2900' (invoice and field ticket attached) on 2/14/01.

On 1/13/04, Southwest Royalties loaded the casing of the Eaves A5 w/5 Bbls produced water and tested the well to 560# and held for 30 mins. BLM representative Marlon Deaton witnessed test. Chart attached.

TA APPROVED FOR 12 MONTH PERIOD
