MIRU wireline unit and pump truck. Run electric bottom hole pressure tool. Start test at cut back rate. Increase rate

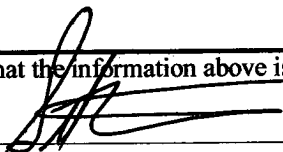

At end of each step. Step size will be dictated by amount of pressure increase during first three steps, may need to

Adjust up or down. Continue with steps until pressure plot shows a break indicating parting pressure. Acquire

Three additional steps past parting pressure where possible. Rig down and leave well shut-in.

I hereby certify that the information above is true and complete to the best of my knowledge and belief.
