12. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work) SEE RULE 1103.

03/25/04 Meeting with Chris Williams asks for following notice to bring CMU # 60 from non-compliance.

January 31, 2004 opened above well for the day and shut well back in. February 29, 2004 opened above well for the day and shut well back in. Chris said since gas was minimal he would wave reporting of C-115 due to Wiser's home office in Dallas not noticing the event. Wiser will have on March report C-115 the opening of well March 31, 2004 and shut well back in. Wiser will continue to open well on last day of month to keep in compliance.

With all said, the purpose of keeping the well shut in is due to lack of market for gas. Wiser will be setting an extraction unit for the Queens gas in the very near future. At that time the well will be returned to production.

I hereby certify that the information above is true and complete to the best of my knowledge and belief.
