13. Describe Proposed or Completed Operation (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompleat horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompleat in a new interval, a Form 3160-4 shall be filed once testing has been completed. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the site is ready for final inspection.)

Mack Energy Corporation Proposes to Plug well as follows:

1. Notify BLM 24 hours prior to starting plugging operations. *Notify OCD*
2. Set 200' cement plug from 3568-3368'.
3. Circulate hole w/mud gel.
4. Perforate @ 956' squeeze 100' cement plug from 956-856' top of salt section.
5. Perforate @ 60' circulate cement to surface.
6. Install dry hole marker.

|                                                                                                                                                                                                                                                                                     |                        |
