13. Describe Proposed or Completed Operation (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompleat horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompleat in a new interval, a Form 3160-4 shall be filed once testing has been completed. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the site is ready for final inspection.)

Edge Petroleum Oper. Co., Inc. proposes to change the casing design to the following:

Hole Size	Interval	Casing Size	Weight	Grade, Joint
36"	0-40'	30"		
26"	0-890'	18 5/8"	87.5#	J-55, BTC
17.5"	0-2550'	13 3/8"	68#	N-80, BTC
12.25"	0-4300'	9 5/8"	43.5#	N-80, LTC
8.5"	0-13200'	5 1/2"	23#	L-80, LTC

The change to the casing design is necessary due to results of Edge drilling the South Lusk 33 Federal #1. We expected loss circulation in the Capitan Reef interval below 2960' and requested permission to set 13 3/8" casing at 2570'. The 13 3/8" casing was set at 2570'. We drilled ahead and lost circulation at 2960' and dry drilled to 4360' where we set 9 5/8" casing. Also, we plan to run 18 5/8" 87.5# J-55, BTC for the surface casing versus 20" 94# due to cost and availability.

14. I hereby certify that the foregoing is true and correct
