Ranking Score (Total Points) <u>20</u>							

If this is a pit closure: (1) attach a diagram of the facility showing the pit's relationship to other equipment and tanks. (2) Indicate disposal location: onsite ☐ offsite ☒ If offsite, name of facility Controlled Recovery Inc. (3) Attach a general description of remedial action taken including remediation start date and end date. (4) Groundwater encountered: No ☒ Yes ☐ If yes, show depth below ground surface ft. and attach sample results. (5) Attach soil sample results and a diagram of sample locations and excavations.

I hereby certify that the information above is true and complete to the best of my knowledge and belief. I further certify that the above-described pit or below-grade tank has been/will be constructed or closed according to NMOCD guidelines ☐, a general permit ☐, or an (attached) alternative OCD-approved plan ☐.

Re: Little Kings #3 – Pit Closure Form C-144

Dear Mr. Johnson,

The Little Kings #3, Sec 17-T22S-R35E, 2130' FSL & 2130' FWL, API 30-025-36431 is a plugged and abandoned well. If it meets with your approval Devon Energy Production Company, L.P. plans to dispose to Controlled Recovery Inc. (P.O. Box 388, Hobbs, NM). After the pit contents and liner has been removed we will take a sample of the soil from the pit bottom. The pit will then be closed and the pit area re-contoured.

Enclosed is a copy of the C-144 and a diagram of the location.

If you have any questions please call me at 505-748-0173.

Sincerely,

A handwritten signature in cursive script that reads "Vivian Rodriguez".

Vivian Rodriguez
Field Tech
