13. Describe Proposed or Completed Operation (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompleat horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompleat in a new interval, a Form 3160-4 shall be filed once testing has been completed. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the site is ready for final inspection.)

Well TA with plugs set during completion at 3500', 3250', 2900' all with 35' of Class C cement on top.

6-13-03 - CIBP set at 2790' with 35' Class C cement on top. Successful MIT ran and submitted to BLM with TA request.

Gruy request TA of this well due to it's potential use as a disposal well and/or injection well for waterflood.

This is a recent well bore drilled in 2001 and at this time we would like to leave the above option open either to ourselves or our partner in oil operations Smith & Marrs.
