13. Describe Proposed or Completed Operation (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recomplate horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompletion in a new interval, a Form 3160-4 shall be filed once testing has been completed. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the site is ready for final inspection.)

Melrose Operating Co. will move in pulling unit to test CIBP @ 3372' above perforations @ 3472-3572' and test casing. If the test is successful it will be submitted to the BLM/OCD and Melrose plans to add perforations in the Yates formation. In the event the test is unsuccessful the well will be squeezed or plugged - as per OCD stipulations.
