Hobbs, NM 88240

Re: Rio Blanco 4 Fed Com #3
API # 30-025-36425

Attention Donna Mull:

Devon Energy Production Company, L. P. would like to request that the requirement for running a four-point test be waived. This well is producing a significant amount of water and requiring the well to be shut in for the test could be detrimental to the production. This well was adequately evaluated for test purposes by the drill stem test performed during drilling. Please see attached DST data.

Should you require any additional information or assistance, please do not hesitate to contact me at (405) 228-8209.

Sincerely,

Linda Guthrie
Regulatory Specialist
Devon Energy Production Company, L.P.
