13. Describe proposed or completed operations. (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work). SEE RULE 1103. For Multiple Completions: Attach wellbore diagram of proposed completion or recompletion.

The Flounder State #1 Reserve Pit will be closed in accordance with NMOCDD Rule 50 and the Pit and Below-Grade Tank Guidelines, dated November 1, 2004. Brine was used in drilling this well. Stiffened mud and cuttings will be buried in a deep trench located to the north of the reserve pit. The deep trench will be lined with an impervious, reinforced 12-mil liner. The trench will be capped with a 20-mil impervious, reinforced liner, and then covered with a minimum of 3 feet of clean soil or like material capable of supporting native plant growth.

After removing mud, cuttings and liner, the reserve pit will be backfilled.

Work will begin as soon as approval is received.

I hereby certify that the information above is true and complete to the best of my knowledge and belief. I further certify that any pit or below-grade tank has been/will be constructed or closed according to NMOCDD guidelines ☒, a general permit ☐ or an (attached) alternative OCD-approved plan ☐.
