Re: Application for Triple Tubingless
Completion, TEXACO Inc., C. H. Weir
"A", Well No. 9, Lea County, New
Mexico

Attention: Mr. A. L. Porter, Jr.

Gentlemen:

Attached is Texaco's Application for Triple Tubingless Completion for the C. H. Weir "A" Well No. 9, located 2310 feet from the west line and 1980 feet from the south line, Unit K, Section 12, T-20-S, R-37-E, Lea County, New Mexico. Texaco received approval for an oil-oil-oil completion under administrative order No. MC-1217 dated July 22, 1962. However, on initial completion it was found the Blinebry zone was gas productive rather than oil, therefore, the well is being completed as a Skaggs-Drinkard, Undesignated Blinebry Gas and Skaggs-Glorieta producer. Approval has been granted previously by the New Mexico Oil Conservation Commission for these zones in another well in this area.

Also attached is a copy of the plat showing the area immediately surrounding Texaco's C. H. Weir "A" Lease and a diagrammatic sketch of the proposed triple tubingless completion. It is respectfully requested that TEXACO Inc. be granted administrative approval for this application as provided for under Rule 112-A.

Yours very truly,

J. G. Blevins, Jr.
