Mr. Eric Engbrecht  
Oil Conservation Commission  
Box 2045  
Hobbs, New Mexico

Dear Eric:

This will refer to our telephone conversation of this date in regard to Form C-110 as filed by Gulf Oil Corporation on their Alice Paddock 5-B, Section 1, Township 22 South, Range 37 East, which was recently reclassified as a Blinebry gas well because of an increase in the GOR. You advised that the C-110 indicated that the liquid hydrocarbons from this well would be commingled with an oil well within the Blinebry Oil Pool on the same lease.

This will be your authority to approve the C-110 since the oil well on the lease is currently producing considerably less than top allowable for the pool.

I am enclosing an extra copy of this letter to be placed in the well file.

Very truly yours,

A. L. PORTER, Jr.  
Secretary-Director
