## 13 Describe Proposed or Completed Operation (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof.

If the proposal is to deepen directionally or recomplete horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond no. on file with BLM/BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompletion in a new interval, a Form 3160-4 shall be filed once testing has been completed. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have completed, and the operator has determined that the site is ready for final inspection.)

On October 7, 2004, a verbal extension was granted until Dec. 31, 2004 in response to NOI-AJM-L163-4. Due to problems with the APD for the re-entry of the Cleary AKC Fed. #2, we did not spud this well until Dec. 15th. At this time we respectfully request an additional 60 day extension so we can complete the drilling and evaluation of the #2 well before any decisions can be made in regards to the #1 well.
