13. Describe Proposed or Completed Operation (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompleat horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompleat in a new interval, a Form 3160-4 shall be filed once testing has been completed. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the site is ready for final inspection.)

The Sholes B-19 #1 was successfully MIT'd on 1/20/05. The witnessed chart has been previously submitted.

Because we have only operated this well since 2/2004, we have not yet had adequate time to evaluate this well's production potential and think a P&A operation would be premature.

With this notice, Inflow Petroleum Resources, LP requests that the well be granted TA status for an additional 18-months.

This Is The Last Temporary Abandonment
Approval That Will Be Granted For This Well.
Last Production Was Before February 1984.
