User Name	Comment	Comment Date
LWILLIAMS	Registration of a pit or below-grade tank. Apache Corporation certifty that the drilling pit will be constructed according to NMOCD guilelines. Liner: Synthetic 12 mils thick. Pit volume 7100 bbls. Drilling Method: Brine Depth to Groundwater 100+ ft. Distance from nearest fresh water well >1000 ft. Distance from nearest surface water > 1000 ft. Ranking Score (Total Points) 0.	7/12/2005
LWILLIAMS	The referenced well is in the Hare San Andres Gas Pool (160 ac spacing). Apache plans to test the San Andres and if it tests as oil classification, which Apache anticipates, then Apache will apply to have the Hare Gas Pool contracted and the Eunice San Andres Oil pool expanded.	7/13/2005
PKAUTZ	THIS LOCATION IS NON STANDARD FOR THE HARE;SAN ANDRES SEE CONDITIONS OF APPROVAL	7/13/2005
PKAUTZ	This APD is being rejected in accordance with rule 104. The Grayburg zone is allready approved for a well by another operator. C-104 requires you to provide a statement that you have notified this operator and have waited a minimum of 20 days before filling this APD and have received no objections.	7/15/2005
LWILLIAMS	Apache Corporation is going to drill & complete and turn over operations to Hendrix Corop.	7/15/2005
