### NATURE OF RELEASE

Type of Release	Oil	Volume of Release	30BBLS	Volume Recovered	30BBLS
Source of Release	Oil Tank	Date and Hour of Occurrence	9/14/2017 @ 5:00 AM	Date and Hour of Discovery	9/14/2017 @ 5:00 AM
Was Immediate Notice Given?	<input checked="" type="checkbox"/> Yes <input type="checkbox"/> No <input type="checkbox"/> Not Required	If YES, To Whom?	OCD-Olivia Yu BLM-Shelly Tucker		
By Whom?	Mike Shoemaker, EHS Professional	Date and Hour	BLM- Shelly 9/14/2017 @ 11:05 PM OCD- Olivia Yu 9/14/2017 @ 11:08 PM		
Was a Watercourse Reached?	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No	If YES, Volume Impacting the Watercourse			
If a Watercourse was Impacted, Describe Fully.*	N/A				

**RECEIVED**

By Olivia Yu at 11:56 am, Sep 29, 2017

#### Describe Cause of Problem and Remedial Action Taken.\*

While completing routine route the lease operator found the oil tank running over reviewed Cygnet and had not received any alarms. The operator switched out of that tank and into the next tank to stop any further release. The oil storage tank had overflowed into the lined containment. A vacuum truck was dispatched to recover the fluids.

#### Describe Area Affected and Cleanup Action Taken.\*

Approximately 30BBLS of oil was released as a result of the oil tank running over. Approximately 30BBLS of oil was recovered via the dispatched vacuum truck. All fluid stayed inside the lined SPCC containment. Once fluids were removed the liner was visually inspected by Devon field staff for any pinholes or punctures and none were found. Based on this inspection there is no evidence that the spill fluids left containment.

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
