**RECEIVED**  
*By Olivia Yu at 3:35 pm, Mar 27, 2017*

**If a Watercourse was Impacted, Describe Fully.\***  
N/A

**Describe Cause of Problem and Remedial Action Taken.\***  
A pin hole developed in the gun barrel causing the drain line to release produced water. The tank was isolated to prevent further release. Repairs will be made before equipment is placed back into service. .

**Describe Area Affected and Cleanup Action Taken.\***  
Approximately 6bbbls produced water was released into the lined containment. A vacuum truck was called and recovered 6bbbls produced water from the lined containment. The containment was visually inspected for holes and none were found. No further action is necessary.

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
