RE: R-111-P; Statement from Operator
Date 14 State Com #503H, #506H, #507H, #508H
Sections 11 & 14, T21S, R 33E, Lea County, NM

Dear Mr. Kautz:

EOG has reviewed the area surrounding the subject sections for the purpose of identifying Potash Leases within a one (1) mile radius of the pending subject well APDs.

Sources used to identify our results were the New Mexico State Land Office Data Portal, BLM LR2000 Serial Register Page covering the entire township and range, and email confirmation from the Federal Abstract Company, 419 E Palace Ave, Santa Fe, NM 87501.

As of the date of this letter, EOG finds no Potash Leases within a one (1) mile radius of the subject sections. If you have any questions or concerns, do not hesitate to contact me.

Sincerely,

EOG Resources, Inc.
