2) Install a gas knock-out vessel upstream of the Heater Treater.

As of 4/14/2020, the LCV solution was implemented and tested, but there was an issue with the level control instrumentation that resulted in an inability to operate the new equipment. New instrumentation is being identified and procured the week of 4/14/2020 and will require 4-6 weeks for delivery, followed by 1 week for installation.
