LETTER OF VIOLATION - Field Inspection

Dear Operator:

The following inspection indicates that the well, equipment, location or operational status of the well failed to meet standards of the New Mexico Oil Conservation Division as described in the detail section below. To comply with standards imposed by Rules and Regulations of the Division, corrective action must be taken immediately and the situation brought into compliance. The detail section indicates preliminary findings and/or probable nature of the violation. This determination is based on an inspection of your well or facility by an inspector employed by the Oil Conservation Division on the date indicated.

Please notify the proper district office of the Division, in writing, of the date corrective actions are scheduled to be made so that arrangements can be made to reinspect the well and/or facility.

INSPECTION DETAIL SECTION

[30-025-01643] E-K QUEEN UNIT #068

OGRID: 20497

H-24-18S-33E 1980 FNL 660 FEL

Inspection Date	Type Inspection	Inspector	Corrective Action Due By	Inspection No.
8/31/2020	Routine Inspection	[GR] Gary Robinson	11/29/2020	iGR2024439181

Violations:

Rule

Violation

Detection of
Deficient Mechanical
Integrity

Comment:

Last prod 6-2020, surface csg open to atmosphere, prod csg open to atmosphere with seep and wet around wellhead with salt stain, picture. Called Mike Frazier and he is going to shut the well in until cause of leak is found, violation was written and sent.

In the event that a satisfactory response is not received to this letter of direction by the "Corrective Action Due By:" date shown above, further enforcement will occur. Such enforcement may include this office applying to the Division for an order summoning you to a hearing before a Division Examiner in Santa Fe to show cause why you should not be ordered to permanently plug and abandon this well.

Sincerely,

Hobbs OCD District Office
