13. Describe Proposed or Completed Operation: Clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompleat horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports must be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompleat in a new interval, a Form 3160-4 must be filed once testing has been completed. Final Abandonment Notices must be filed only after all requirements, including reclamation, have been completed and the operator has determined that the site is ready for final inspection.)

Well failed MIT in February 2009, due to either tubing, packer or casing leak.

EOR would like to reactivate this well by performing repairs to the failed equipment.

Tubing and packer will be pulled, casing will be tested and any casing problems will be repaired as will as tubing packer issues will be addressed and the well will be returned to active status.

MIT test will be witnessed by BLM/OCD rep.
