proposed completion or recompletion.08/26/11 – MIRU kill truck & recording chart. Pressure casing to 520 psig, held for 30 mins. Chart attached.
RDMO kill truck.

It is requested that the TA'd status of this well be extended. The well is a twin to the J. M. Denton #6 SWD (operated by Fasken) which is currently disposing of water in the Penn Zone. Legacy Reserves Operating LP would like to keep this wellbore to utilize as a replacement well in the event the #6 SWD wellbore becomes incapable of use. Legacy would also like to keep this well in TA'd status while it observes the results of the J M Denton #2 reactivation in the Wolfcamp zone. The #2 well was just recently reactivated and more time is needed to obtain results before making a decision on reactivating other wells in the Wolfcamp zone on Legacy's J M Denton lease.

This Approval of Temporary
Abandonment Expires 8-26-2012
