13. Describe proposed or completed operations. (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work). SEE RULE 19.15.7.14 NMAC. For Multiple Completions: Attach wellbore diagram of proposed completion or recompletion.

Per phone conversation with Mr. E. L. Gonzales on Thursday 09/08/2011, this report is being sent to confirm plans to place an underground P and A marker at this well site. Due to the location being within the city limits of Hobbs, NM and the close proximity to a car dealership it was decided that the underground marker would be a better alternative to permanently mark this well bore opposed to the 4" above ground marker. Mr. Gonzales gave verbal permission for the underground marker and requested this C-103 form be sent at the earliest convenience. All required information per 19.15.16.8 NMAC will be weld written onto a metal plate and plate will be welded to casing of the well at a depth of approximately 12' by 09/16/2011. The GPS readings for this well bore are N32.70826°; W103.13515°. Well location is on the northwest corner of the intersection of North Dalmont and East Scharbauer in Hobbs, NM.
