CASING/CEMENT JOB ☐

OTHER: ☐

13. Describe proposed or completed operations. (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work). SEE RULE 19.15.7.14 NMAC. For Multiple Completions: Attach wellbore diagram of proposed completion or recompletion.

Yates Petroleum Corporation planned to pull the RBP (did that on 9/1/11) and go in and try to pull packer that was set over Morrow perms. Packer has a blanking plug in it.

We had fill on top of packer and washed it down to 12,245'. The packer is at 12,270'. As per E.L. Gonzales he would like for us to either pull the packer and put in a CIBP or if we cannot pull it, mill on it until it will move and push it down to within 100' of Morrow perms at 12,513'-12,522'.

Wellbore schematic and C-144 CLEZ (mailed 8/5/11) is attached
