OTHER: ☐OTHER: MIT & Request Extension of TA Status ☒

13. Describe proposed or completed operations. (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work). SEE RULE 19.15.7.14 NMAC. For Multiple Completions: Attach wellbore diagram of proposed completion or recompletion.

08/26/11 – MIRU kill truck & recording chart. Pressure casing to 520 psig, held for 30 mins. Chart attached.  
 RDMO kill truck.

It is requested that the TA'd status of this well be extended. The well is currently TA'd in the Wolfcamp Zone. Legacy Reserves Operating LP would like to keep this wellbore to utilize as a replacement well in the event any of the three disposal wellbores (Fasken operated Denton SWD #2, Denton SWD #5 and Denton SWD #6) wellbores become incapable of use. Legacy would also like to keep this well in TA'd status while it observes the results of the J M Denton #2 reactivation in the Wolfcamp zone. The #2 well was just recently reactivated and more time is needed to obtain results before making a decision on reactivating other wells in the Wolfcamp zone on Legacy's J M Denton lease.
