	<input type="checkbox"/> Change Plans	<input type="checkbox"/> Plug and Abandon	<input type="checkbox"/> Temporarily Abandon	
	<input type="checkbox"/> Convert to Injection	<input type="checkbox"/> Plug Back	<input type="checkbox"/> Water Disposal	

13. Describe Proposed or Completed Operation (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompleat horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompleat in a new interval, a Form 3160-4 shall be filed once testing has been completed. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the site is ready for final inspection.)

The rig that RMR Operating is planning to use for this drilling project comes with a 5000 psi BOP System. However, the well that we are drilling only requires a 3000 psi BOP system. We respectfully request the test requirement for the BOP system be reduced to 3000 psi and that the requirement for mud equivalency tests be withdrawn.

Test BOP AS 3M system. All other COAs in APD Apply  
3M system Does NOT require mud Equ. Test.

14. I hereby certify that the foregoing is true and correct
